1. Parts List

Two Stainless Steel Straps - Only one is needed, the other is a spare.

Eight Flexible Silicone Strips.

Sixteen Stainless Steel Pins.

2. Installation Steps

Step 1: Insert the stainless steel strap into the silicone strips.

① Pin Holes.

② The protruding part of the stainless steel strap and silicon strip should be on the same side.

Figure 1

Step 2: Bend into a circle.

- ③ Ensure the pin holes are all facing up.
- ④ Leave some space before finishing the circle for the next operation.

Figure 2

Step 3: Place the circle over the rain funnel.

- ⑤ If the tie loop is pulled too small to fit over the rain funnel, insert a spare stainless steel strap at the arrow to push the strap out.
- ⑥ After placing the circle over the rain funnel, ensure the holes face up. Then pre-tighten the circle by hand.

Figure 7: for T-Unit

Figure 8: for DP1000

Figure 9: for DP1100/DP1100 PRO

4. Suggestions

Install it according to the installation steps. Extra metal straps can be cut out when mounted on Y/T-Unit, DP1000, and DP1100/DP1100 PRO.

If the metal strip applied is not tight enough, we suggest applying extra silicon RTV type glue to make the part more securely fixed on funnel edge. The glue can be applied to the pin holes also so that the metal pin will be even tighter installed.

General safety instructions

Danger of asphyxiation:

Keep all packaging materials (plastic bags, rubber bands, etc.) away from children. There is a danger of suffocation!

Danger of burns:

Caution! Leaking / leaking battery acid can lead to burns! Avoid contact of battery acid with eyes, mucous membranes and skin. In case of contact, rinse the affected areas immediately with clear water and consult a doctor.

Risk of electric shock:

Children must not be unattended with the

device, because the device contains electronic parts which are operated by means of a power source. The device may only be used as described in the instructions. If not, there is a risk of electric shock.

Danger of fire & explosion:

Use only recommended batteries. Never short-circuit the unit or batteries. Never throw the device or batteries into a fire! Overheating and improper handling may result in short circuits which can cause fires and explosions.

Important:

If there is a defect, contact your dealer immediately. Never disassemble the device! The dealer will contact the service department. Never expose the device to

water! Protect the device from vibrations. Only use recommended batteries. Never mix batteries - Always replace empty batteries with a complete set of full power batteries. If the unit is not powered for a longer period of time or is not in use, remove the batteries from the unit. The manufacturer accepts no liability for incorrectly inserted batteries!

Notes on the return of batteries according to §12 BatterieVO: Batteries do not belong in the household waste. Please dispose of all batteries as required by law, disposal in domestic waste is expressly prohibited. Batteries and rechargeable batteries can be dispensed free of charge at municipal

collection points or in the shops on the spot.
